

Appl. No. 10/595,167  
Amdt. dated Oct. 13, 2009  
Reply to Office action of Aug. 03, 2009

**Amendments to the Claims:**

This listing of claims will replace all prior versions, and listings, of claims in the application:

**1) Listing of Claims:**

Claim 1 (Currently Amended) - The list in the parentheses is meant to be examples of server connections. Proposed change: to add the words "such as" and "connection". The sentence would then be changed to: "At least two wireless devices having a first transceiver enabling wireless connection to the server (such as: TCP/IP Connection, iMode connection, FOMA connection, Wi-Fi technologies connection)."

Claim 2 (Currently Amended) - Proposed change: to add the words "such as" -hence the claim would be: "The system of claim 1 wherein the wireless device further includes a second transceiver enabling short range communication with other wireless devices (such as: Bluetooth, infrared, USB/USB2.0).

Claim 5 (previously presented) - Is a derived change if claim 1 is changed.

Claim 6 (previously presented) - Is a derived change if claim 2 is changed.

Claim 11 (Currently Amended) - Proposed change: to replace the word "may" with "has the ability to"- hence the claim would be: "The game system of claim 1 ~~may~~ has the ability to use HSDPA (High speed Downlink Packet Access) technology."

Claim 12 (Currently Amended) - The claim's purpose is to describe the ability of the mentioned system to enable users both to play and to communicate with other players simultaneously. Proposed change: to alter the syntax in order to further clarify the claim to: "The game system of claim 1 further enables players to communicate on the phone while playing the game."

Claims 3-10, 13-29 (previously presented) - Remain in this application. Please refer to Remarks/Arguments below.
